Technical sheet 64TRIO

Design file

We work with an Adobe CS 5.5 base.
We accept following documents: pdf, eps, ai, jpg, psd.

Cutting size

Size of your file with scale 1/1 + 2 mm bleed around the cover, 162 x 175 mm.

Prepress

- Images 300 dpi in CMYK.
- No use of spot colors unless special request.
- We prefer a file without template and cut lines.
- Be sure to send us all the necessary fonts if we need to work in your file.

Legal notices

The condom is a medical device and meets the standards. The CE, the address of the condom manufacturer, the indication of the contents, the warnings, the lot number and the expiry date must be written visibly and legibly. All this data will be printed in the green frame of the model. This location may vary depending on your creation or the number of languages selected. Any color in the background is accepted.

Number of languages

The languages of legal information must be understood by the target audience and according to the official regulations of the country of distribution. Example: in France, one language is required: French. In Switzerland there are several official languages, the use of three languages is strongly recommended: French, German and Italian.
The area of space reserved for legal ones will be larger.

Inside packaging

The space inside the case is reserved for printing the instructions for use (mandatory). We print these in black with the exception of special requests. We recommend only a title or a short text, a background is also possible. Please contact us for the available space.
